

Class I Notification

Jefferson County Parks Department

311 S. Center Ave., Room 204

Jefferson, WI 53549

(920) 674-7260

The Jefferson County Parks Department is accepting bids for the installation of a well and Baker 1-DFHCS hand pump at the Garman Nature Preserve in Waterloo WI. The project will include well drilling, casing, grout cap and seals, and the appropriate nitrate and bacteria samples taken and submitted. The well depth is estimated to be approximately 180', with 120' of 6" well casing. The contractor will be required to install a Baker 1-DFHCS hand pump stand with a bubbler, the associated 6" adaptor fittings, and complete the installation at the well site. Bids should be based on the complete installation with a depth of 180' and 120' of casing. Unit costs per foot for the depth and the casing shall be stated with the contract price adjusted up or down based on the actual footages installed. The project is located at 701 Fox Lane, Waterloo, WI 53594. Sealed bids should be submitted to 311 South Center Avenue, Room 204, Jefferson, WI 53549 by 12:00 p.m. on Friday March 7th, 2014. If you have questions about this project, please contact Kevin at 920-674-7540 or kevinw@jeffersoncountywi.gov.
